ARS Data Warehouse Tables

Atomic Level Employee Tables

One **ARS Employee Summary** record exists per person.
Records exist in auxiliary employee tables as appropriate (degree, catalog titles.)

Atomic Level Appointment Tables

One **ARS Appointment Master** record exists per 'appointment' - an employee may have multiple appointment records.
Records exist in auxiliary appointment tables as appropriate, but are linked to the ARS Appointment Master table by the Appt_Seq_Num.

Data Marts/Views

Data Marts are created to expedite querying and facilitate reporting on common elements. Elements are incorporated from many different atomic level tables, as noted.

---

**ARS_EMPLOYEE_SUMMARY**
ARS data for the employee, i.e. Name, DOB, Citz/Visa

**ARS_DEGREE_INFORMATION**
Higher Ed Degree Info for employee
