Introductory Message

Welcome to the Office of Institutional Research and Planning Who's on Campus now? website. This site presents a three-year snapshot of enrollment activity at the University. The figures presented are the official enrollment figures for the University (those reported to various state and federal agencies, as well as those used internally by the University for most purposes).

Note: The figures for Fall 2004 were revised to reflect a miscategorization of 37 students originally identified as new transfer students. The pages dated 30 September 2004 reflect this change.

Changes in Class Standing

As of the end of Spring 2002 semester, the University's credits levels for class standing were changed. The Fall 2002 data reflect those changes, while class standings for previous terms are based on the definitions in effect at the time the data were frozen. Because of these changes, trends between Fall 2002 and previous terms have been affected.

Data Definitions

Definitions of the data contained within these pages are now available. Please select the "Data Definitions" link in the menu on the left of the screen.
Instructions

Select from the menu options available in the left column. This menu will contain the available links for University data.
