Welcome to Residency Classification Office (RCO). The Residency Classification Office handles appeals for reclassification to in-state status for students who were initially classified with an out-of-state status by Undergraduate or Graduate Admissions. Admissions and the Residency Classification Office both follow the Policy for Student Residency Classification for Admission, Tuition and Charge-differential purposes established by the Board of Regents.

Students may submit a petition for reclassification to the Residency Classification Office at four designated time periods during the year. Click the button on the left for deadlines.
