MEMORANDUM

TO: Craig Beyrouty  
Dean, College of Agriculture and Natural Resources

FROM: Elizabeth Beise  
Associate Provost for Academic Planning and Programs

SUBJECT: Proposal to Rename the Ph.D. in "Veterinary Medical Sciences" to "Comparative Biomedical Sciences" (PCC Log No. 19034)

On July 1, 2020, Chancellor Perman approved your proposal to rename the Ph.D. in "Veterinary Medical Sciences" to "Comparative Biomedical Sciences." On July 15, 2020, the Maryland Higher Education Commission gave final approval. A copy of the approved proposal is attached.

The new program title is effective Fall 2020. The Graduate Catalog entry for the program will be updated by the Graduate School (contact Angela Ambrosi at aambrosi@umd.edu for more information). Please ensure that the new title is fully described in all other relevant descriptive materials.

Dr. Darryll J. Pines
President
University of Maryland, College Park
1122 Main Administration Building
College Park, MD 20742

Dear Dr. Pines:

The Maryland Higher Education Commission reviewed a request from University of Maryland, College Park to change the title of the program listed below.

I am pleased to inform you that the program proposal is approved. This decision is based on an analysis of the program proposal in conjunction with the laws and regulations governing academic program approval, in particular Code of Maryland Regulation (COMAR) 13B.02.03. The program meets COMAR’s requirement and demonstrates potential for success, an essential factor in making this decision.

For the purposes of providing enrollment and degree data to the Commission, please use the following HEGIS and CIP codes.

<table>
<thead>
<tr>

C: Dr. Antoinette Coleman, Associate Vice Chancellor, USM
   Dr. Mike Colson, Senior Coordinator for Academic Programs, UMD

File: 20251
July 1, 2020

Dr. Darryll Pines
President
University of Maryland, College Park
Office of the President
Main Administration Building
College Park, MD 20742

Dear Darryll,

Thank you for the request of the University of Maryland College Park to change the names of the M.S. in Veterinary Medical Science to "M.S. in Comparative Biomedical Sciences" and the Ph.D. in Veterinary Medical Science to "Ph.D. in Comparative Biomedical Sciences." I understand that there will be no change to the curricular requirements of the programs, and that this request is to change the names to distinguish these research-oriented programs from the college’s professional Doctor of Veterinary Medicine (D.V.M.).

I am pleased to approve these actions. I have confidence that both programs will continue to meet with success under the new titles.

Sincerely,

Jay A. Perman
Chancellor

Cc: Mary Ann Rankin, Senior Vice President and Provost
Antoinette Coleman, Associate Vice Chancellor for Academic Affairs
PCC Proposal to Rename the Ph.D in “Veterinary Medical Science” to “Comparative Biomedical Sciences” (Senate Document #19-20-42)

I am pleased to forward the accompanying legislation for your consideration and approval. Betsy Beise, member of the Programs, Curricula, and Courses Committee, presented the PCC Proposal to Rename the Ph.D in “Veterinary Medical Science” to “Comparative Biomedical Sciences” (Senate Document #19-20-42), which the University Senate approved at its meeting on March 3, 2020. Please inform the Senate of your decision and any administrative action related to your conclusion.

Approved: 03-25-2020

Wallace D. Loh
President

Copies of this approval and the accompanying legislation will be forwarded to:

Mary Ann Rankin, Senior Vice President and Provost
Reka Montfort, Executive Secretary and Director, University Senate
Michael Poterala, Vice President and General Counsel
Cynthia Hale, Associate Vice President for Finance and Personnel
John Bertot, Associate Provost for Faculty Affairs
Elizabeth Beise, Associate Provost for Academic Planning & Programs
Sylvia B. Andrews, Academic Affairs
Craig Beyrouty, Professor and Dean, College of Agriculture and Natural Resources
Yanjin Zhang, Associate Professor, Veterinary Medicine Program
Janna Bianchini, Chair, Programs, Curricula, and Courses Committee
PCC Proposal to Rename the Ph.D. Program in “Veterinary Medical Sciences” to “Comparative Biomedical Sciences” (PCC 19034)

PRESENTED BY Janna Bianchini, Chair, Senate Programs, Curricula, and Courses Committee

REVIEW DATES SEC – February 21, 2020 | SENATE – March 3, 2020

VOTING METHOD In a single vote

RELEVANT POLICY/DOCUMENT NA

NECESSARY APPROVALS Senate, President, Chancellor, and Maryland Higher Education Commission

ISSUE

The Department of Veterinary Medicine proposes to rename its M.S. and Ph.D. programs in Veterinary Medical Sciences to Comparative Biomedical Sciences. This research-based curriculum is distinct from the department’s professional Doctor of Veterinary Medicine (D.V.M.). The latter is offered on the Virginia Tech campus, is jointly administered by the University of Maryland and Virginia Tech through the Virginia-Maryland College of Veterinary Medicine, and is the practitioner program designed for those students who wish to pursue a career as a veterinarian. In contrast, the Veterinary Medical Sciences programs (offered on the College Park campus) are focused on educating the next generation of scientists in the techniques for and approaches to analyzing infectious diseases and therapeutic development. The name change to Comparative Biomedical Sciences (CBSC) is intended to help students better distinguish the goals of the research-based program from the professional doctorate. CBSC covers both basic and applied veterinary and biomedical sciences for improving animal, human, and environmental health. The integration of the animal, human, and environmental health is a relatively new thrust in the field, known as “One Health.” Several graduate programs, at the colleges of veterinary medicine in comparable universities, have already adopted the CBSC title.

Applicants with a D.V.M., M.D., or equivalent or related degree in biological sciences plus a master’s degree, may be admitted to the Ph.D. program. In exceptional cases, admission to the Ph.D. program without the M.S. degree may be considered but these candidates must complete a minimum of 24 hours of course work.

The proposed name change was endorsed by the Graduate School Programs, Curricula, and Courses committee on January 30, 2020, and by the Senate Programs, Curricula, and Courses committee on February 7, 2020.

RECOMMENDATION(S)

The Senate Committee on Programs, Curricula, and Courses recommends that the Senate approve this name change.
COMMITTEE WORK

The committee considered this proposal at its meeting on February 7, 2020. The committee met with the graduate program director, Dr. Yanjin Zhang, who made a brief presentation and responded to questions. The committee voted to endorse the name change.

ALTERNATIVES

The Senate could decline to approve the name change.

RISKS

If the Senate declines to approve this degree program, the University will lose an opportunity to better market and recruit this degree program to prospective graduate students.

FINANCIAL IMPLICATIONS

There are no significant financial implications.

Proposal Summary
Change the program name from Veterinary Medical Science (VMSC) to Comparative Biomedical Science (CBSC).

Program and Catalog Information

Catalog Program Requirements:

Applicants with a D.V.M., M.D., or equivalent or related degree in biological sciences plus a M.S. degree may be admitted to the Ph.D. program. In exceptional cases, admission to the Ph.D. program without a M.S. degree may be considered but these candidates must complete a minimum of 24 hours of course work. Ph.D. candidates who have previously completed the D.V.M. and/or M.S. degree must meet the minimum course requirements of 12 credits, and a minimum of twelve dissertation research credits (VMSC899). No more than two credits of Special Problems (VMSC699) are acceptable as part of the 12 required course credits. Two additional seminar credits (VMSC698) are required.

Students are required to register for one seminar credit (VMSC698) each academic year. Two seminar credits will be counted toward degree requirements. All students are expected to attend seminars regularly. Students are required to take a written and oral comprehensive examination and submit and defend their Ph.D. dissertation in partial fulfillment of the doctoral degree (see below).

DOCTORAL REQUIREMENTS

During the first semester, the student selects an advisor and with the help of the advisor forms an Advisory Committee. The Advisory Committee and the student must meet by the end of the second semester to approve the student's plan of study. By the end of the second semester the student will submit to the Advisory Committee a dissertation research proposal. An oral and written comprehensive examination is required for advancement to candidacy. Prior to the final dissertation, an oral examination is required for advancement to candidacy. A student must be admitted to candidacy for the doctorate within five years after admission to the doctoral program and at least six months before the date on which the degree will be conferred. It is the responsibility of the student to submit an application for admission to candidacy when all the requirements for candidacy have been fulfilled. Applications for admission to candidacy are made in duplicate by the student and submitted to the graduate program for further action and transmission to the Graduate School. Application forms may be obtained at the Graduate School, Room 2123, Lee Building, or on the web. Paperwork must be received by the Graduate School prior to the 25th of the month in order for the advancement to become effective the first day of the following month. Doctoral candidates are automatically registered for six (6) credits of Doctoral Dissertation Research (899), for which they pay the flat candidacy tuition. Prior to the final dissertation oral examination, the candidate must present a public seminar. Details on the Graduate School policy on the Doctoral Dissertation and Examination may be found in the Graduate School Catalog at: http://www.gradschool.umd.edu/catalog/doctoral_degree_policies.htm

Dissertations are to be submitted to the Graduate School in electronic format after final approval of the dissertation by the Dissertation Examining Committee. See the University of Maryland Electronic Thesis and Dissertation (ETD) website at http://dissertations.umi.com/umd or the University of Maryland Thesis and Dissertation Style Guide (http://www.gradschool.umd.edu/styleguide) for the details of this process.

Program Modification Information

Impact on current students. It should be specifically acknowledged that students enrolled in the program prior to the effective date of any curriculum change may complete their program under the old requirements if they wish. The courses required must remain available, or suitable substitutions specifically designated.

Just the program name change. There is no impact on current students.
Linked Programs

Renaming Program

Provide a rationale for renaming the program.

The Department of Veterinary Medicine operates the Veterinary Medical Sciences (VMSC) graduate program, which concentrates on zoonotic infectious disease research. The VMSC graduate program offers Master of Science (MS) and Doctor of Philosophy (Ph.D.) degrees in the academic fields of veterinary medical, biomedical, and comparative medical sciences.

The current name, VMSC, is often misinterpreted as a professional track for those desiring to become practicing veterinarians. However, the VMSC program focuses on a much broader spectrum with educating the next generation of scientists in the techniques and approaches to analyze infectious diseases and therapeutic development. We sincerely believe that this misinterpretation is based solely on the program name and is actively discouraging applicants. The change is necessary for the development and success of the graduate education program in the Department of Veterinary Medicine.

Changing the graduate program name to Comparative Biomedical Sciences (CBSC) more closely aligns with the academic and training of the degree program and conforms with the department’s research areas of virology, bacteriology, immunology, epidemiology, and vaccinology. Currently, several other research-based Veterinary schools across the country, including Louisiana State University, University of Wisconsin-Madison, University of Georgia, Iowa State University, North Carolina State University, and Cornell University, successfully uses the name of Comparative Biomedical Sciences as a graduate program title.

The proposed name change from VMSC to CBSC has been fully endorsed by all faculty members in the graduate program. This change will clearly define the goals of the graduate program and ultimately attract students who are interested in our research.

Proposal Summary

Change the program name from Veterinary Medical Science (VMSC) to Comparative Biomedical Science (CBSC).

Program and Catalog Information

Provide the catalog description of the proposed program. As part of the description, please indicate any areas of concentration or specializations that will be offered.

Catalog Program Requirements:

Applicants with a D.V.M., M.D., or equivalent or related degree in biological sciences plus a M.S. degree may be admitted to the Ph.D. program. In exceptional cases, admission to the Ph.D. program without a M.S. degree may be considered but these candidates must complete a minimum of 24 hours of course work. Ph.D. candidates who have previously completed the D.V.M. and/or M.S. degree must meet the minimum course requirements of 12 credits, and a minimum of twelve dissertation research credits (VMSC899). No more than two credits of Special Problems (VMSC699) are acceptable as part of the 12 required course credits. Two additional seminar credits (VMSC698) are required.

Students are required to register for one seminar credit (VMSC698) each academic year. Two seminar credits will be counted toward degree requirements. All students are expected to attend seminars regularly. Students are required to take a written and oral comprehensive examination and submit and defend their Ph.D. dissertation in partial fulfillment of the doctoral degree (see below).

DOCTORAL REQUIREMENTS

During the first semester, the student selects an advisor and with the help of the advisor forms an Advisory Committee. The Advisory Committee and the student must meet by the end of the second semester to approve the student's plan of study. By the end of the second semester the student will submit to the Advisory Committee a dissertation research proposal. An oral and written comprehensive examination is required for advancement to candidacy. Prior to the final dissertation, an oral examination is required for advancement to candidacy. A student must be admitted to candidacy for the doctorate within five years after admission to the doctoral program and at least six months before the date on which the degree will be conferred. It is the responsibility of the student to submit an application for admission to candidacy when all the requirements for candidacy have been fulfilled. Applications for admission to candidacy are made in duplicate by the student and submitted to the graduate program for further action and transmission to the Graduate School. Application forms may be obtained at the Graduate School, Room 2123, Lee Building, or on the web. Paperwork must be received by the Graduate School prior to the 25th of the month in order for the advancement to become effective the first day of the following month. Doctoral candidates are automatically registered for six (6) credits of Doctoral Dissertation Research.
(899), for which they pay the flat candidacy tuition. Prior to the final dissertation oral examination, the candidate must present a public seminar. Details on the Graduate School policy on the Doctoral Dissertation and Examination may be found in the Graduate School Catalog at: [http://www.gradschool.umd.edu/catalog/doctoral_degree_policies.htm](http://www.gradschool.umd.edu/catalog/doctoral_degree_policies.htm)

Dissertations are to be submitted to the Graduate School in electronic format after final approval of the dissertation by the Dissertation Examining Committee. Key: 474
April 10, 2020

Dr. James D. Fielder, Jr.
Secretary of Higher Education
Maryland Higher Education Commission
6 N. Liberty Street
Baltimore, MD 21201

Dear Secretary Fielder:

I am writing to request approval for a proposal by our College of Agriculture and Natural Resources to change the name of its Ph.D. program in “Veterinary Medical Science” (HEGIS: 129958; CIP: 512504) to “Comparative Biomedical Sciences.” The curriculum for the program is not changing. In a separate proposal, we also request the same title change for the Master of Science program in Veterinary Medical Science.

We request these changes in order to distinguish these research-oriented programs from the college’s professional Doctor of Veterinary Medicine (D.V.M.). The D.V.M. is offered on the Virginia Tech campus and jointly administered by the University of Maryland and Virginia Tech through the Virginia-Maryland College of Veterinary Medicine. The D.V.M. is a practitioner program designed for those students who wish to pursue a career as a veterinarian. In contrast, the Veterinary Medical Sciences M.S. and Ph.D. programs (offered on the College Park campus) are focused on educating the next generation of scientists in the techniques for and approaches to analyzing infectious diseases and therapeutic development.

The name change to Comparative Biomedical Sciences is intended to help students better distinguish the goals of the research-based program from the professional doctorate. Comparative Biomedical Sciences covers both basic and applied veterinary and biomedical sciences for improving animal, human, and environmental health. The integration of the animal, human, and environmental health is a relatively new thrust in the field, known as “One Health.” Several graduate programs, at the colleges of veterinary medicine in comparable universities, have already adopted the Comparative Biomedical Sciences title.

This proposal has been endorsed by the appropriate faculty and administrative committees. I have accepted this recommendation and request approval. This request is also being sent concurrently to the Chancellor of the University System of Maryland.
Sincerely,

Wallace D. Loh  
President
